**MEMORANDUM**

**To:** Marie Prezioso, Chair

**From:** Katheryn Emery, P.E., Program Manager  
Sewer Technical Review Committee

**Date:** October 15, 2025

**Subject:** Bluewell PSD  
IJDC Application - 2025S-2706  
Pocahontas Memorial Hospital Wastewater System Relocation Project

---

1. This committee has reviewed the preliminary application and engineering report submitted for the above referenced project in accordance with Chapter 31, Article 15A. It has been determined that the proposed project is:
  - a. ☒ Consistent with the intent of the Infrastructure and Jobs Development Act and is the most cost-effective, environmentally sound alternative for solving the wastewater needs in this area.
  - b. ☐ Not consistent with the Act and may not be the most cost effective, environmentally sound alternative for solving the wastewater needs in this area.
  - c. ☐ Same as (a) above except that certain issues need to be addressed prior to design and construction as the attached comments indicate.
2. Our recommendation is that:
  - a. ☒ The Funding Committee needs to review the proposed sources of funding to determine the best mix of grant and/or loan funds in accordance with applicable guidelines.
  - b. ☐ The Funding Committee should recommend that the Council approve the proposed project and its funding plan.

- c. \_\_\_\_ The Funding Committee does not need to review the funding assumptions on this project. This project will need to be tabled to give time for the PSC to complete the review.
- d. \_\_\_\_ This project should be referred to the Consolidation Committee.

3. Other remarks:

This project will make improvements and upgrades to its existing sewer collection system and SCADA system. This system was constructed in 1965 and the lift stations have been in operation for approximately 57 years. The system is problematic and has become very difficult to repair due to age and stability. This project will address these concerns and reduce I&I.

The total cost for this project is \$4,800,000 and Bluewell PSD intends to pursue \$500,000 WV IJDC Grant, \$1,500,000 CWSRF Principal Forgiveness, and a \$2,800,000 CWSRF Loan.

Preliminary Project Ratings:

Public Health Benefits: 15

Compliance with Standards: 20

STATE OF WEST VIRGINIA

Jason R. Frame  
OEHS Director

**MEMORANDUM**

**TO:** Meredith J. Vance, Director  
Environmental Engineering Division

**FROM:** Patrick Murphy, P.E. *PMM*  
Environmental Engineering Division

**DATE:** October 5, 2025

**SUBJECT:** Bluewell PSD  
IJDC Application- **2025S-2706**  
Plant Upgrade / Line Upgrade  
Mercer County

**Recommendation:** We have reviewed this preliminary application and recommend that it be forwarded to the Funding Committee for review.

**Project Scope:** The scope of this project proposes to increase capacity of four main lift stations on the Bluewell collection system, adding emergency generators; replacing segments of the existing line that contain terra cotta lines, replacing the the current waste water treatment plant with a proposed 600,000 gpd capacity and replacing equipment on the existing Bramwell sewer collection system.

The total project cost is **\$4,800,000.00**

**Need for the Project:** This project is needed in order to address inflow and infiltration; sanitary sewer overflows, increase capacity, as well as the current waste water treatment plant nearing its useful lifespan.

**Concerns:** No concerns were noted.

**Permits:** Permits expected to be required include:

- WV Bureau of Public Health Permit
- WVDEP NPDES Permit
- WV Division of Highways
- WV Department of Environmental Protection
- US Army Corps of Engineers

**MEMORANDUM**

**TO:** Katheryn Emery, P.E., Program Manager, DWWM

**FROM:** Spencer Fultineer, DWWM

**DATE:** October 10, 2025

**SUBJECT:** Bluewell PSD  
IJDC Application - 2025S-2706  
Pocahontas Memorial Hospital Wastewater System Relocation Project

---

**RECOMMENDATION**

The IJDC Application and Preliminary Engineering Report (PER) prepared by E.L. Robinson Engineering for the above referenced project has been reviewed and is technically feasible.

**PROJECT DESCRIPTION**

Bluewell PSD owns and operates a wastewater collection and treatment system which serves approximately 1,236 customers in the western part of Mercer County. Bluewell PSD also operates Bramwell PSD's existing wastewater collection and treatment system. Over the last 4 years, Bluewell PSD has been merging these two systems. This merger has been supported by the Mercer County Commission and the Public Service Commission. Upon USDA approval, Bramwell PSD will cease to exist.

This project will make improvements and upgrades to its existing sewer collection system. These improvements will include new piping, manholes, replace four existing lift stations, six emergency generators, and other related work within the Bluewell PSD's system. In addition, an automated meter reading system will be installed and the relocation of the central SCADA system to the main office.

The proposed total cost for this project is \$4,800,000; and Bluewell PSD intends to pursue \$500,000 WV IJDC Grant, \$1,500,000 CWSRF Principal Forgiveness, and a \$2,800,000 CWSRF Loan at 1.75%, 0.25% for 30 years. The proposed monthly rate for 3,400 gallons is \$53.92 (1.59% MHI).

### **NEED FOR PROJECT**

Most of Bluewell PSD's sewer lines are terra cotta pipes, constructed in 1965. The PSD's existing five lift stations have been in operation for approximately 57 years. The concrete wetwells, pump housing, access ladders and hatches are in very poor condition due to their age and have become a safety concern. This section of the collection system and pump stations are problematic and have become very difficult to repair due to age and stability. This project will address these concerns and reduce I&I.

### **DEFICIENCIES/COMMENTS**

- Using the Combined Application, the Design, and Total Engineering Fees appear to be within the ASCE Curves.
- Should perform a cybersecurity vulnerability assessment if it hasn't already done so, and incorporate applicable cybersecurity upgrades into the project.
- The PER will need to be developed into a CWSRF Facility Plan if CWSRF is used.

#### **Preliminary Project Ratings:**

Re: Public Service Commission Staff Review Comments  
Application No. 2025S-2706  
Bluewell PSD – Sewer System Improvements (Part A)  
Infrastructure Preliminary Application

Dear Ms. Emery:

As requested, the Technical Staff of the Public Service Commission of West Virginia has completed its review of the above-referenced Infrastructure application. In light of Technical Staff's comments enclosed herewith, we are recommending the application be:

- ☒ Forwarded to the Funding Committee  
☐ Forwarded to the Consolidation Committee  
☐ Returned to the Applicant

Please advise if you have any questions.

Sincerely,

*Brandon Crace*

**PUBLIC SERVICE COMMISSION STAFF  
TECHNICAL REVIEW**

**DATE:** October 14, 2025

**PROJECT SPONSOR:** BLUEWELL PUBLIC SERVICE DISTRICT-SEWER

**PROJECT SUMMARY:** Bluewell PSD is proposing to make improvements and upgrades to its existing sewer collection system.

|                          |                                    |                |
|--------------------------|------------------------------------|----------------|
| <b>PROPOSED FUNDING:</b> | CWSRF Loan 1.75%, .25% AF, 30 yrs. | \$ 2,800,000   |
|                          | CWSRF Principal Forgiveness Loan   | 1,500,000      |
|                          | IJDC Grant                         | <u>500,000</u> |
|                          | Total                              | \$ 4,800,000   |

|                       |         |               |
|-----------------------|---------|---------------|
| <b>CURRENT RATES:</b> | \$37.31 | 3,400 gallons |
|                       | \$43.50 | 4,000 gallons |

|                        |         |               |
|------------------------|---------|---------------|
| <b>PROPOSED RATES:</b> | \$53.91 | 3,400 gallons |
|                        | \$62.86 | 4,000 gallons |

Application No. 2025S-2706

**RECOMMENDATION:**   X   Forward to the Funding Committee  
       Forward to the Consolidation Committee  
       Return to the Applicant

**FINANCIAL:** Alex Kovarik

1. Current rates (\$37.31 for 3,400 gallons) are below the rates attributable to 1.25% (\$37.55), 1.5% (\$45.06), 1.75% (\$52.57), and 2.0% (\$60.08) of the Median Household Income (MHI). Increasing current rates to 1.25%, 1.5%, 1.75%, and 2.0% of the MHI would provide additional revenues of \$3,204, \$102,644, \$202,083, and \$301,523 respectively.
2. Using Scenario 1, the preferred funding package consisting of a CWSRF Loan of \$2,800,000 at 1.75%, .25% Admin. Fee, for 30 yrs., CWSRF Principal Forgiveness Loan of \$1,500,000 and an IJDC Grant of \$500,000, proposed rates (\$53.91 for 3,400 gallons) will provide a cash flow surplus of \$2,306 and debt service coverage of 183.92%.

3. Using the Scenario 2 alternate loan package of \$4,800,000 (in uncommitted funds) at 5% for 40 years (paid back over 38 years), proposed rates (\$63.83 for 3,400 gallons) will provide a cash flow deficit of \$17,079 and debt service coverage of 138.56 %. An additional 1.8% (for a total of \$64.98 for 3,400 gallons) increase in proposed rates will be required in order to provide a cash flow surplus of \$471 and debt service coverage of 144.54%.

#### 4. NOTES TO COMMENTS

- A. Staff's detailed adjustments are listed on Attachment A for Scenario 1 (Preferred Funding Package), Attachment B for Scenario 2 (Loan Package) and Attachment C for Scenario 3 (Alternate Funding Package).
- B. Staff used the MHI for Mercer County District 1 of \$36,048 from the 2020 U.S. Census. The applicant did not list an MHI in its application.
- C. Staff prepared the attached Cash Flow Analysis utilizing information from the Annual Report for the Fiscal Year Ended June 30, 2024, and the applicant's Rule 42 Exhibit submitted with the application.
- D. The \$37.31 (3,400 gallons) rates became effective for all service rendered on and after July 1, 2025. The applicant's Rule 42 Exhibit included adjustments for these rates. It should be noted that the project sponsor is proposing to increase rates to \$43.84 (3,400 gallons) as reflected in its cash flow analysis. The District hasn't filed with the PSC to increase its rates to that level.
- E. Staff has included a Scenario 3 analysis. Staff notes that the project sponsor is proposing a CWSRF Loan at 1.75%, .25% Administrative fee, for 30 years. Since proposed target rates of \$53.92 (3,400 gallons) are less than 2% of MHI (\$60.08) but greater than 1.75% of MHI (\$52.57), the terms of this proposed CWSRF loan would typically be .75%, .25% Admin. Fee, for 30 years, for the preferred funding package. If the preferred funding package is adjusted for this change, proposed target rates (\$53.92 for 3,400 gallons) would provide a cash flow surplus of \$20,114 and debt service coverage of 208.57%.
- F. Senate Bill 234, effective June 12, 2015, required water and sewer utilities that are political subdivisions of the state to maintain a cash working capital reserve in an amount of no less than one-eighth (1/8) of actual annual operation and maintenance expenses. It should be noted

that the cash flows provided by the project sponsor include funding for the 1/8 cash working capital reserve. Staff accepted that amount in its analyses. However, this amount may be reviewed by the Commission in future filings in accordance with Public Service Commission General Order 183.11.

**ENGINEERING:** Brandon Crace

1. Pursuant to House Bill 2742 passed in the 2025 Legislative Session, this project will not require a Certificate of Convenience and Necessity from the PSC.
2. Scope: The Bluewell Public Service District is proposing to make improvements and upgrades to its existing sewer collection system. The proposed project scope includes: replacement of Lift Station #1, replacement of Lift Station #2, replacement of Lift Station #3, replacement of Lift Station #4, 4 emergency standby generators (Lift Stations #1 – #4), replacement of 2000 LF of gravity sewer main, replacement of 5 AirVac valves, replacement of 5 grinder pumps, replacement of 2 lift station pumps, mobilization/demobilization, and all necessary appurtenances. The estimated construction cost is \$3,740,000 (includes 10% construction contingency), and the estimated total project cost is \$4,800,000 (includes 7.94% project contingency).

Need: The PER indicates that existing lift stations have been in operation for approximately 57 years, are in poor condition, and need to be replaced. Additionally, these lift stations have pumps and control panels that are located in confined spaces, which require employees to climb down ladders to make repairs, all while much of the lift station equipment has reached the end of its useful life. The PER states that “Part A” is being proposed to address DEP’s Administrative Order 9040 (dated 2019), and DEP’s Draft Consent Order (dated November 2024).

Customer Density: This project is an upgrade project; therefore, customer density will remain unchanged.

Cost per Customer: Based upon the estimated total project cost is \$4,800,000, and having approximately 1192 customers, the cost per customer will be approximately \$4,027. However, the cost per customer in terms of proposed borrowing is \$2,349, as the proposed funding is 41.7% grant.

3. Project Feasibility: The project appears to be technically feasible and poses little technical risk.
4. Project Alternatives: The PER evaluated two (2) alternates: “Part A” – Replacement of Lift Stations, Replacement of Old Terra Cota Sewer Mains, and Upgrades to the Bramwell collection and treatment system; “Part B” – Upgrade Montcalm WWTP to 600,000 GPD, Replacement of Lift Stations, Replacement of Old Terra Cota Sewer Mains, and Upgrades to the Bramwell collection and treatment system. The PER states that the PSD proposed to proceed with “Part A”, and indicates the District will pursue the WWTP upgrades under IJDC Project No. 2022S-2232 at a later date.
5. Consolidation: There are no consolidation opportunities presented by this project.
6. Operation and Maintenance (O&M) Expenses: The PER states that “The estimated project-related O&M expenses per year is estimated to be approximately \$23,833.” The PER indicates generator fuel and maintenance is estimated to be \$20,000. However, the PER did not include any further breakdown or detailed discussion of changes to O&M.
7. Engineering Agreement: The application includes information to determine compliance with West Virginia Code §5G-1-1, *et seq.* Total technical services (engineering) costs for the project are \$705,000, which is equal to 18.85% of the construction cost of \$3,740,000 (includes construction contingency).
8. Deficiencies/Comments:
  - Nothing significant to note.
