MEMORANDUM

TO: Katheryn Emery, P.E., Assistant Director, DWWM

FROM: Corey McComas, DWWM *cm*

DATE: December 13, 2018

SUBJECT: City of Clarksburg
Long Term Control Plan (Ph. IV)
Soft Cost Grant Request
IJDC No. 2016S-1655

RECOMMENDATION

The soft cost grant request submitted by The Thrasher Group, dated December 10, 2018, for the above referenced project has been reviewed and approval is recommended.

DISCUSSION

After further investigation by the City, the total piping for the project cannot be installed within the City's ROWs, due to site constraints. Therefore, 26 ROWs will need to be obtained for this project. The Engineer estimates that this will cost \$30,000.

The project is being funded entirely by CWSRF and these funds cannot be used to obtain property and ROWs, therefore, another funding source is required. Grant funding is essential because the amount that can be borrowed cannot be increased because the rates are already in place for this project.

The request states that the \$10,000 that was budgeted for this be increased to \$30,000 and this be funded by a \$30,000 IJDC Soft Cost Grant. Any unused funds will be returned.
