MEMORANDUM

TO: Kathy Emery, P.E., Engineer Chief, DWWM

FROM: Justin Moffitt, P.E., DWWM

DATE: March 14, 2025

SUBJECT: Town of Davis – Water System Improvements
Engineering Fee Variance Request, Scope and Funding Change
IJDC No. 2024W-2554

RECOMMENDATION

The request for the engineering fees variance, scope and funding change for the above-mentioned project submitted by The Thrasher Group, Inc. has been reviewed, and it is technically feasible.

DISCUSSION

The additional scope to address the primary water source issues will include an additional \$688,000. The revised Total Project Cost Estimate is \$960,000.

● IJDC Grant	\$480,000.00
● IJDC Loan	<u>\$480,000.00</u>
● Total Cost	\$960,000.00

The Special Service for this project includes a ground penetrating radar investigation for their water source. This special service is specific to the dam rehabilitation procedure, and beyond the normal scope of engineering services. Removing these costs results in the total fee percentage falling within the ASCE curve.
