MEMORANDUM

TO: Marie Prezioso, Chairman, Technical and Funding Committee
WV Infrastructure and Jobs Development Council

FROM: Meredith Vance
Water Technical Review and Funding Committee

DATE: September 27, 2022

RE: Engineering Fee Waiver Request
Midland PSD
Faulkner Road Water Line Extension Project
IJDC Preliminary Application: **2022W-2152**

REQUEST:

The Midland PSD Extension Project.

In the technical review comments dated July 26, 2022, a total fee waiver was required due to the total fee being above the very complex ASCE fee curve. According to the engineer's waiver request dated August 3, 2022, the work for this project requires several special services that are not typical to most water line extension projects, but which are vital to this particular project. These services include an Asset Management Plan, geotechnical investigation for the maintenance building design, a plant habitat assessment, bat conservation plan, and seven (7) railroad crossing design surveying and permits. The Thrasher Group considers the proposed project to fall within the very complex category due to the magnitude of work being proposed.

RECOMMENDATION:

The Technical Review Committee recommends approving the total fee waiver based on the information provided.
