RECOMMENDATION

The request submitted by Region VI Planning and Development Council, dated August 10 2022, for the above referenced project has been reviewed and is technically feasible.

COMMENTS/DISCUSSION

This request is to complete the original scope of work and to install streambank erosion controls on the property adjacent to a tributary to Middle Island Creek. Estimates for the Project and Construction Cost are \$93,500 and \$69,000, respectively. This will also help resolve a dispute with the property owner. This work will be put out for bid and will not be completed by change order.
